In summation, this is the action taken by a vote of the quorum of officers pertaining to:

Existing Safety Rule #12

Any and all weapons & FX equipment (whips, knives, swords, breakable bottles, boards, etc...) should be serviceable and safe in all manner of thinking. Whip snappers should be changed regularly and any knife used in a fight scene or worn by anyone falling down should have a safe rounded edge. Knives that are considered tools may have an edge but should never be used in a show where falls may occur for that character.

Agenda Item #3 - 2009 being considered:

Clarify that falling with a sharp knife rule. If it is to be secured or not secured. Bringing knife into play is known that it will be checked but a sheathed knife leaves a lot of room for doubt.

Resolution by vote:

Item will be forwarded to the Safety Officers' committee under the direction of the National Safety Officer to be resolved by December 15, 2009.
